To Whom It May Concern:

**Letter of Recommendation
Clean Works London**

It is a pleasure to write this Letter of Recommendation for Clean Works.

We have used Clean Works since April 2010, soon after we opened our new location, The South West Wellness Centre in Lambeth, ON.

Becky, Director of Operations was very helpful in reviewing our needs and selected the most appropriate employee on their staff for our contract. We have been very impressed with "Harold" who has done a spectacular job of keeping our building in the crisp and clean condition it was when we opened in 2009.

We, as Employers, and consumers in general, all have choices. I chose to support Clean Works in their endeavor to assist those who needed a helping hand in securing respectable employment.

We never regretted our choice to employ Becky and the hard working staff at Clean Works London and I would whole heartedly recommend them for your serious consideration.

Respectfully submitted,

David E. Rawson, DDS
Clinic Director
